

Moral Issues

PHIL 61_05: Spring 2023, Tuesdays and Thursdays, 10:30 - 11:45
&
PHIL 61_06: Spring 2023, Tuesdays and Thursdays, 12:00 - 13:15
Instructor: Iman Roohnavaz

Why Batman never kills those dangerous murderers whom he fights against? How did Dr. Harleen Quinzel's character change to a villainous character, and how did she later improve her character? Finally, why was Iron Man so concerned about the consequences of the Avengers' actions to the extent that he quarreled with Captain America?

To know a profound answer to the mentioned questions, you need to know about the moral principles of the mentioned figures. In its turn, such knowledge about those principles will enable you to tackle real moral issues that many of us are concerned with in our lives, moral issues that revolve around topics such as discrimination, abortion, animal rights, etc. That is why in this zero-cost material philosophy course that satisfies GE area C2, we want to know about some of the most important moral theories, the great thinkers who came up with them, and how such knowledge can help us tackle moral issues.
